EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows: Claims 12 and rejoined 13 have both been amended to correct dependency by deleting, in the first line of each, the phrase "based on reactive monomers", and by changing them to be dependant on claim 4.

2. This application is in condition for allowance except for the presence of claims 1-3, 5, 7-11, 14-16 and 19-25 directed to inventions non-elected without traverse. Accordingly, claim s 1-3, 5, 7-11, 14-16 and 19-25 have been cancelled.

3. The following is an examiner's statement of reasons for allowance: the closest prior art, to Trofimov et al, teaches the monomers of applicant's composition and a process for their production, but is silent as to the claimed compositions or how to use the compounds except that they can be polymerized. The reference refers to a teaching in U. S. Patent 3,554,990, which discloses the use of some of the compounds of Trofimov et al as adhesives, but does not teach the claimed compounds. The disclosure of the reference, therefore, does not enable or motivate one of ordinary skill in the art to produce the claimed compositions from the compounds disclosed.
